

Rostar is happy to bring you something new - HEPA filtration!

In addition to the high quality filtration, you have come to expect of Rostar filters, HEPA offers the benefit filtering out fine-dust, pollen, bacteria, mold and smoke.

Please find a sample for your inspection and consideration!

Our list of initial releases and applications are below. We are accepting pre-orders for delivery after October 1, 2025.

Part Number	Primary OEM Number	Primary Applications
R22177HP	80292S5D416	Various Honda and Acura models, 2001-2006
